Presented by Journeys to the Past and Staff at ZOOMARS Petting Zoo

Join us for a week of fun, fascination and friendship as campers learn about the animals here at ZOOMARS and those who share our planet! Through crafts, games, songs and storytelling the children will be enriched and enlightened each day about the amazing world of animals and what they teach us.

Campers will work side by side with zookeepers to feed and care for the animals. Campers will also get to polish up their saddles for a special ride around ZOOMARS trail with one of our cowboy's. We'll also have special assignments like feeding the llamas, grooming the goats and other surprises.

Each day we'll join in on creating a special craft to take home. We are also excited to announce a new Partnership this year with the Dr. John D. Cooper Archaeological and Paleontological Center. Archaeologists from the Center will visit the camp and local Native American artifacts to share with the children and let them explore thousands of years old midden (shells, bones and more). You get to be the scientist! Campers will enjoy other special guest speakers and their connection to animals all around.
